

Education

Bachelor of Computer Science, expected May 2024

College of Science and Engineering, University of Minnesota-Twin Cities, Minneapolis, MN

Notable Coursework

- Algorithms and Data Structures (Spring 2021)
- Machine Architecture and Organization, Discrete Mathematics (Fall 2021)
- Functional Programming, Linear Algebra (Spring 2022)

Work Experience

Software Development Intern, Advaita Bioinformatics Corporation (Summer 2019)

- Worked on genetic pathway analysis features for Advaita's iPathwayGuide software using Java, JavaScript, Python, R, and PostgreSQL
- Performed collaborative software development tasks under AdvaitaBio's lead software developer
- Made use of software development tools and processes such as version control with Bitbucket (Git) and issue tracking with Jira

Prep and Line Cook, Northside Grill (Summer 2021)

- Handled myriad kitchen responsibilities on-demand, as directed by the head cook
- Primarily responsible for preparing ingredients and cooking on the line

Skills

Programs and Tools

- Unity (2D, 3D), Unreal Engine 4, OpenGL, Blender
- Visual Studio, RenderDoc, CMake
- Git (GitHub, Bitbucket, command line), Jira, Trello

Programming Languages

- Most Used: C, C#, Python
- Past Experience: C++, Java, OCaml, JavaScript, R, PostgreSQL, GLSL

Recent Projects

- Arpeggio (2020-2021, Unity 2D and C#) - Ability system, equipment system, input handling system
- Catalogue (2022, Unity 2D and C#) - Shooter combat, emphasis on game-feel driven by sturdier and more elegant systems. Continued improvements with input handling, FSM-driven behaviour, use of composition, etc.
- Miscellaneous Engine-Level Game Programming (2016-Present, C/C++) - OpenGL graphics, ECS architecture

Leadership and Activities

- Programming Mentor and Officer, University of Minnesota Video Game Development Club (Fall 2022)
- Teaching Assistant, Introduction to Data Structures and Algorithms, University of Minnesota (Fall 2022)
